

Daytime Art Classes: Acrylic Painting + Mixed Media

Instructor Evelyn Caro

Explore the world of Acrylic Mediums and experiment with different painting processes. The instructor can guide you through the ins and outs of creating abstract backgrounds. Learn about wetting agents, crackle pastes, and how to use textures, collage and layers. Have fun experimenting with materials and learn strategies of how to successfully manage the element of surprise while trying out new painting methods.

Students will work independently on their own projects at their own pace with in studio demos from the instructor.

Supplies not included - there will be acrylic mediums & products provided in studio for students to experiment with or try for the first time.

Students are expected to provide their own canvas/panel to work on as well and bring their own paints as the class develops.
